

LEGAL LEADERSHIP DEVELOPMENT PROGRAM

WOMEN IN A LEGAL WORLD

HARVARD
LAW SCHOOL
EXECUTIVE EDUCATION

We live in an era of great changes that are happening at a very fast pace.

These are manifesting themselves in various spheres, such as geopolitics, industries, resource management, and a long etcetera. Furthermore, these lifestyle changes are being accentuated as a consequence of the global pandemic produced by Covid-19.

However, even though our environment is constantly changing, evolving, and progressing, the truth is that leadership is a fascinatingly paradoxical phenomenon, since that the characteristics of great leaders do not change.

The world needs inspiring leaders who think exponentially and exercise leadership
in a responsible and humanistic way.

The LEGAL LEADERSHIP DEVELOPMENT PROGRAM offers the tools
necessary so that women jurists who are in positions of maximum responsibility
can face the challenges that we assume in the day to day.
